## MEMORANDUM

**TO:** Interested Parties

**FROM:** Robert H. Cross, Chief  
Mobile Source Control Division

**DATE:** April 28, 2000

**SUBJECT:** PUBLIC WORKSHOP TO DISCUSS BACKGROUND INFORMATION  
FOR THE SEPTEMBER 2000 ZEV BIENNIAL REVIEW

A biennial review of the Air Resources Board's Zero Emission Vehicle (ZEV) program is scheduled for September 2000. The purpose of the biennial review is to update the Board on progress being made towards meeting the ZEV program requirements. Staff to the Board are holding workshops to present information related to the review, and receive public comment. This memo provides a draft agenda and background information for the second such workshop.

### **Please note the following:**

- The workshop has been extended to two days, to better accommodate public interest. The workshop will begin on May 31, 2000 and conclude on June 1, 2000.
- The location of the workshop has been changed. The workshop will now be held in the Auditorium of the South Coast Air Quality Management District, 21865 E. Copley Drive, Diamond Bar, California.
- Staff asks that individuals wishing to speak at the workshop pre-register in advance, using the form provided below.

Copies of draft staff materials to be discussed at the workshop will be posted on the ARB web site (<http://www.arb.ca.gov/msprog/zevprog/2000review/2000review.htm>) prior to the workshop.

A draft agenda for the workshop is attached. The four workshop sessions will address the Battery Technical Advisory Panel report, the EV Market, Environmental and Energy Impacts, and Cost Methodology. Each Session will include a staff presentation and a

panel of invited speakers. Following the invited speakers, others who have pre-registered will have an opportunity for public comment on the announced topic. In addition, "general" public comment sessions will be held in the afternoon each day, and in the evening on May 31. At these general sessions, those who have pre-registered will have an opportunity to provide public comment on any aspect of the ZEV review.

Speakers who have not pre-registered will be accommodated at each session to the maximum extent possible given the available time. To allow us to plan and prepare for a productive workshop, however, staff asks that individuals wishing to speak notify staff in advance. This will allow us to budget time to ensure that all speakers are given an opportunity to present their views. Individuals that wish to speak should fill out the attached form and send it no later than May 26, 2000 to:

Mr. Charles Shulock  
Air Resources Board  
Fax 916-322-3923  
Email: [cshulock@arb.ca.gov](mailto:cshulock@arb.ca.gov)

Questions regarding the workshop should be directed to Mr. Shulock at the email address noted above or telephone 916-322-6964.

Thank you.
